8' 2"	155-8720
12' 4"	155-8723
16' 4"	155-8727
20' 4"	155-8731

5 YEAR LIMITED WARRANTY

The panels covered by this warranty are manufactured using polyvinyl chloride (PVC). The panels are warranted for 5 years to not rot, corrode, develop structural cracks, or require painting/refinishing (normal pigmentation change expected) when kept reasonably clean through semi-annual washing to remove accumulated dirt. Exposure to ultra violet light will make warranty null and void.

The warranty is for 5 years and upon verification of failure, provides replacement panels to the original purchaser. The owner is responsible for the cost of fabrication, shipping, labor, and installation of replacement panels.

The warranty applies only to panels stored, installed, and used in accordance with manufacturer's recommendation and with recognized standards of construction. It does not apply to any failure or damage due to fire, lightning, hail, wind, unusual stresses or load weights, or any other conditions beyond the control of the manufacturer.

The manufacturer will act to fulfill this warranty within 60 days after receiving a claim with all information necessary to determine its validity.

This limited warranty is the sole warranty provided with PRO-TUF™ Corrugated PVC Liner Panels. Manufacturer option stated above is the sole, exclusive remedy available to the purchaser. Manufacturer shall not be liable for any incidental or consequential damages, including any damage to persons or property whatsoever, nor for breach of any expressed or implied warranty, nor for any implied warranty of merchantability or fitness for a particular purpose.

To present a claim under this warranty, original purchaser must send a sample and copy of the receipt to manufacturer.
